My child attends Sticks n Stones. The company provides invaluable services for the local school who struggle to provide enough space for before and after school provisions. My child really enjoys attending and has built an amazing relationship with all staff and children. This is especially important for my child as he has additional needs and moving provisions will be difficult for him. My younger child is also on the waiting list for Sticks n stones. If the company was to close I would struggle to drop my children off at two separate provisions in opposite directions from each other as there is a lack of private nurseries in the area. So I would be using additional fuel and would struggle to get to work on time. Sticks n stones is truly an invaluable asset to the local area for all the reasons above. The local school really would struggle if sticks n stones closed. It’s wonderfully to see how much my child enjoys it and I’m really looking forward to sending my younger child.
