The childminding venue is a valuable asset to the local community. Without this childminding business I would need to find an alternative and there is a massive lack of provision locally The setting provides a source of local employment and training for younger members of staff The childminding business is very close to my house, if this is not supported/approved then I would need to travel much further afield ,this not only will cost me more time and expense (fuel) but also has a negative and unnecessary impact on the environment (unnecessary journeys). My daughter has additional needs and a change like this would massively impact her progress and well being. It takes a lot for us to leave her with anyone and we would be lost without Sticks and Stones. We are in walking distance to the school which means I can drop her off and still be at work in time. I am a key worker and have an important role which I need to be there on time for as it would effect our patients. There is a significant shortfall of this provision in the locality If this planning application is not supported/approved then the business will be forced to close. This will result in the loss of local jobs. We simply can not manage without them. They are an amazing team and are in my view irreplaceable.
