I completely agree with this planning there is not enough childcare in this area and the loss of this business would cause a lot of problems for many families in the local community. Not only would it affect families it would also affect the local staff who provide high quality care to ensure the safety of all the children who attend this setting. Children need to be able to have a chance at learning and mixing with other children from a wide variety of backgrounds as it boosts their personal, social and emotional skills. Knowing how little options they are for children to do this especially in a small area where they are already lacking with the amount of child care providers is absolutely heartbreaking. It is in the perfect location and this childminding business has very close links with the local school which supports children who are transitioning over.
