I fully support the application, based what I can testify is the dire shortage of childcare in the Meltham area. This business provides stimulation and entertainment for the children attending the before and after school sessions, and they do a fantastic job with the younger children also. The environment they provide fosters the understanding and development of social/societal behaviours, helping to further the personal development within the children that the parents are promoting at home. If the application were to be denied and the business close, the area would lose a much needed resource; with the children that attend losing out on the benefit of additional social development with peers outside of a school setting, and a link between the community and the local school (Meltham Moor Primary School) also being lost. Finally, the loss of this business in the community would be detrimental due to those that work there being put out of work, and parents of the children would struggle to find alternative childcare (due to the aforementioned lack of childcare in the area) that was as closely linked to the local school that also had working hours that accommodate working parents.
