Nick Hirst

AUTHORISED OFFICER

Date: 08-Apr-2025

Application: 2025/44A/90124/E

Site: viaduct at, Newgate, Mirfield

Proposal: Discharge of details reserved by condition 3 on previous permission 2021/91333 for Listed Building Consent for erection of overhead line structures on MVN2/192 viaduct

Publicity

The application was advertised by site notice and press notice expiring 27th February 2025.

No representations have been received as a result of this publicity.

Condition 3 (Historic Structures Recording)

Condition wording

3. (Historic Structures Recording) No works shall take place until a methodology for full structure recording including the appropriate level of recording has been approved in writing with the local planning authority. Subsequent recording will take place prior to commencement of works and be deposited with the West Yorkshire Archive Service and West Yorkshire Historic Environment Record in accordance with the timescales agreed in the approved methodology.

Documents Submitted

- Transpennine Route Upgrade West, Mirfield Viaduct (MVN2/192), Mirfield, West Yorkshire. Historic Building Investigation and Recording. Dated March 2025, Issue No: V.3.

Consultation Responses

West Yorkshire Archaeology Advisory Service – I have checked the report, and this is now satisfactory.

Assessment

In their comments dated 18/02/2025 West Yorkshire Archaeology Advisory Service initially raised issues with the terminology relating to components of the viaduct. In addition, the length of the photographic scale used needed to be checked as in some photographs the proportions of the subject and surroundings did not appear correct.

Network Rail have provided an updated document which addresses these matters, and West Yorkshire Archaeology Advisory Service were re-consulted. In their response dated 04/04/2025 they have confirmed that this is now

satisfactory. In accordance with the comments from above, the details are considered to be satisfactory for the purposes of condition 3.

Recommendation: Approve details.

Report Dated: 08.04.2025
