

Species Enhancement statement

Proposed extension and alterations to 3 Fixby Park Drive Huddersfield HD2 2NN

The property in question falls within an established residential area the works comprise of a single storey rear/side extension, raising of front gable extension, and pitched roof over flat roofed lounge extension. The extensions footprint will be over a lawned and flagged area and will not affect wildlife habitat.

The wildlife enhancements proposed are a permanent a Fortecrete Sparrow terrace and a Swift nesting box fixed under the eaves on the east elevation.

The nesting box locations have been marked on the plan as proposed
