<p>This is not an appropriate location in which to site a residential home for vulnerable children right in the middle of what is a quiet residential cul-de-sac street with a narrow access and already difficult to negotiate with the current resident's vehicle parking set up and as there is no off street parking at the premises for staff who will need to travel there it will increase traffic cause parking issues disturb the general peace and tranquility of the area particularly during staff changeover times, There is no private garden or outside space within the curtilage of the property, or amenities for the children who will be there to use, with the likelihood of them having to wander out on to the street to access outdoor space and potential for safety/well being concerns for the mainly elderly residents who have lived here for many years and expected to continue to do so in peace. There have been issues in the area previously with youngsters coming to the area to take drugs in the secluded nearby woods and setting fire to them putting private property at danger.and this is only going to increase the likelihood of antisocial behavior within the area through sheer boredom and lack of anything meaningful for them to to in the area, and thereby encouraging others juveniles into a residential area for no good reason.</p>
