<p>We would like to object to the change of use from a family home to a residential care home. We have only lived on this quiet residential area for a short while and would not have considered purchasing if we had been aware of the proposed plans. We feel this will have an impact on the value of our property. We wanted to bring our family into a quiet community with low traffic flow, we feel this change would detrimentally impact on the safety of our children and would deny them the freedom of safe play in a quiet neighbourhood. The increase of traffic flow would be invertible a feel that parking outlined in the plans are unrealistic and would cause increased upset and disturbance in our close community. From the number of upset residents voicing their concerns and objecting to the plans put forward to Kirklees I also feel that this could cause tension between the care home staff and the community which in turn could cause upset for the vulnerable children also seeking a peaceful environment to live. Larger more suitable properties with better internal design layouts are available in close proximity to this property and should be considered.</p>
