Subject: Lawbrook Farm Application No 2025/90240

We would like to object to the above planning permission application. The proposed 4 houses would overlook our home and overshadow our property and 4 properties with at least 2 cars per house will cause problems on our very small road and access in and out of our drive.

We are also very concerned that this will significantly affect our house price.

We live at Lawbrook Farm, this property was originally one house and was turned into three houses.

and we own the third house also called Lawbrook Farm, our property will be opposite the proposed build, we had no knowledge of this planning permission or proposed build until we saw the application on the lamppost outside our home. We are devastated.

Can we oppose this build if we all live in Lawbrook Farm?

Kind regards
