I strongly support this application and urge the Council to do likewise. The people of the Valley have been aware of the need to address the climate crisis and reduce carbon emissions since HoTT was first set up over a decade ago. The Picturedrome proposal will serve as a practical example of the possible to other businesses, property owners and house owners. It also fits with the Council's commitments contained in the Local Plan and the Holme Valley Parish Council's Neighbourhood Development Plan. I can think of no justifiable reason why this application should not be approved.
