5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☐ Yes ☒ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

1. Tree to fell. Species unknown but by process of elimination (ie definitely not sycamore, horse chestnut, silver birch, oak etc) it could be birch or elm (picture enclosed). Minimal leaf canopy and no seedlings in last 2 years with many branches clearly dead. Very close to neighbouring property.
 - 2a Single conifer (probably Lawson Cypress) very close to house to be reduced by 25% to prevent root ingress into house foundations.
 - 2b Single conifer type as 2a at end of shrub/bush border, next to boundary wall, to be reduced by 40% to allow more light.
 - 2c Row of 7 conifers type as 2a to be reduced by 25% to allow more light on to hardstanding, rear lawn and neighbouring property.
- All of trees 2a, 2b & 2c have suffered damage to branches following recent snow and storms and need tidying up.
3. Two holly bushes to be re-shaped to square pillars including 20% reduction in height.

7. Identification Of Tree(s) And Description Of Works continued ...

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)
