I am the Director of HD3 Fitness Centre which is located in the building opposite the proposed structure. There has been zero consultation with me about these plans. I have only become aware of this via social media. However, if the building is solely for the use of Huddersfield Giants sports teams I can see the benefit. My concerns are: 1. The height of the building and the material it will be made out of. Is this in keeping with the area? 2. Parking problems- we already have very serious parking issues which have not been addressed sufficiently. Will more people be using the facility and cause this problem to increase? 3. We are a commercial fitness centre delivering excellent fitness opportunities to our local community (especially our mature and older population). Obviously we wouldn't want this new facility to be opened to the public.
