

**KIRKLEES METROPOLITAN COUNCIL  
INVESTMENT & REGENERATION SERVICE**

**DEVELOPMENT MANAGEMENT**

**Town and Country Planning Act 1990 (as amended) – SECTION 70**

**DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS**

Reference No:	<b>2025/62/90408/E</b>
Site Address:	2, Kensington Way, Gomersal, Cleckheaton, BD19 4FB
Description:	Erection of single storey rear extension with front porch
Recommending Officer:	Jennifer Booth

**DECISION – CONDITIONAL FULL PERMISSION**

**I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.**

John Holmes

***AUTHORISED OFFICER***

**Date: 11-Apr-2025**

## **OFFICER REPORT**

### **Site Description**

2 Kensington Way is an art stone, new build dwelling which is a detached property on the entrance into a recently constructed housing development. The dwelling occupies a perpendicular position relative to the road with a drive and gardens to the front, side and rear.

There are open fields to the northern side with similar residential properties to the southern side and rear.

### **Description of Proposal**

The applicant is seeking permission for a porch to the front with a single storey rear extension.

The porch would be open sided with art stone plinths and a pitched roof with tiles. This would project 1.2m with a width of 3.2m.

The extension at the rear would project 4.6m from the original rear wall of the property, across the back of the dwelling for 7.5m. The roof over the extension would be pitched.

The walls would be constructed using art stone with tiles for the roof covering.

### **Relevant Planning History**

2023/91484 – erection of porch and side & rear extensions – refused for the following reason:

*The proposed side and rear extension, by reason of the overall design and scale, would result in the formation of an incongruous feature which would be out of the character with the host property and the wider street scene. To permit the proposals would be detrimental to visual amenity and contrary to Policy LP24 of the Kirklees Local Plan, KDP 1 & 2 of the House Extensions & Alterations SPD and advice within chapter 12 of the National Planning Policy Framework.*

2024/91616 – extensions to front, side and rear – refused for the following reason:

*The proposed side and rear extension, by reason of the overall design and scale would result in unacceptable harm in terms of visual amenity due to the formation of an incongruous feature which would be out of the character with the host property and the wider street scene. To permit the proposals would be contrary to Policy LP24 of the Kirklees*

*Local Plan, KDP 1 & 2 of the House Extensions & Alterations SPD and advice within chapter 12 of the National Planning Policy Framework.*

The proposal the subject of this application has been reduced such that the description now relates to an extension to the rear only, rather than to the side. Both applications 2023/91484 & 2024/91616 are taken into consideration in the following assessment of this proposal, and in particular the reduced scale of the development proposal the subject of this application.

## **Representations**

The application was advertised by neighbour letters, which expired on 28/03/2025

As a result of the above publicity, no representations have been received.

## **Consultation Responses**

None

## **Policy**

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27<sup>th</sup> February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12<sup>th</sup> November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

## **Kirklees Local Plan Policies**

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP 30** – Biodiversity

Kirklees Council adopted supplementary planning guidance on house extensions on 29<sup>th</sup> June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

### **National Policies and Guidance:**

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6<sup>th</sup> March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change
- Chapter 15 – Conserving and enhancing the natural environment

### **Assessment**

#### Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions & Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

Planning permission has been refused last year and earlier this year for extensions to this property. The current proposals have reduced the level of development and shall be assessed below.

#### Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the

street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes on to state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

The proposal under consideration consists of two distinct elements which shall be addressed below.

#### *Front porch*

Paragraph 5.13 of the House Extensions & Alterations SPD states that front extensions are highly prominent in the street scene. As per paragraph 5.14 of the House Extensions & Alterations SPD, careful consideration needs to be given to ensure that they are carefully designed to limit the potential for them to erode the character, they should be small and subservient to the main house and constructed using appropriate materials.

The porch is small in scale and would be constructed using matching materials with the use of art stone for the columns and tiles for the roof covering. The porch is therefore considered to be acceptable in terms of visual amenity.

#### *Single storey rear extension*

Paragraphs 5.1 and 5.2 of the House Extensions & Alterations SPD go into further specific detail regarding rear extensions requiring development to maintain the quality of the residential environment, respect the original house and use appropriate materials.

The rear elevation of the dwelling is prominent, and the previous applications have failed due to the size and scale proposed. However, the current proposals have reduced the rear extension and can now be considered to be acceptable given the size of the host property and its associated curtilage. The materials proposed include the use of stone for the walling with tiles for the roof covering which would match the host property. The design and detailing including the fenestration and roof form would form an appropriate relationship with the main house. The previous reasons for refusal have been overcome and the proposals are now considered to be acceptable in terms of visual amenity.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

Given the position of the dwelling, some distance from any neighbouring dwelling, the proposals would not result in any harm in terms of overbearing, overshadowing or overlooking.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Chapter 12 of the National Planning Policy Framework.

#### Impact on highway safety:

The proposals will result in some intensification of the domestic use. However, the parking area to the front of the property would not be affected by the proposed extension and is considered to represent a sufficient provision. Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

#### Other matters:

##### *Biodiversity*

The development is for a single storey extension to the dwelling. Whilst the property is sited in area, which is known to include bat habitats, in this instance, as the works proposed are single storey and include no work to the main roof, then it is considered unlikely to have an impact on the bat population.

##### *Carbon Budget*

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

None

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Matching materials to ensure that the extensions harmonise with the host property as using alternative materials would look out of place within the street scene.

Conclusion:

This application to erect a porch to the front and a single storey extension to the rear of 2 Kensington Way has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

**Recommendation**

**Approve**

**Decision Authorisation - Delegated Powers**

**Application Number:** 2025/90408

**Officer Recommendation:** Approve

**Conditions and Reasons**

1. The development hereby permitted shall be begun within three years of the date of this permission.

**Reason:** Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

**Reason:** For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

3. The external walls and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building and be retained thereafter.

**Reason:** In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

**NOTE:** The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

**NOTE:** To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays

08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.
