<p>My main concern would be in respect of road safety. This spot is on the edge of a bottle neck from the direction of Marsden. Added cars parked roadside would add to this bottle neck which over the last few years has seen at least 3 serious accidents and other occasions where minor damage has been caused by passing traffic. I appreciate the properties have garages but these are very rarely used for the actual purpose intended. Added to this there is a bus stop directly in front of the planned properties which is only going to add to the problem. I assume looking at the plan that the public right of way would definitely be unaffected by the plans,</p>
