

Consultation Response from: KC Environmental Health (Pollution & Noise Control)		
2025/90426 - 54 Warren Street, Savile Town, Dewsbury, WF12 9LX		
Erection of two storey side extension and dormers to form 4 additional flats		
Responding Date: 2025	Responding Officer: Mohammed Nasim	Responding Ref: WK2025
<p><u>Comments</u></p> <p><u>Noise</u> The development site sits above and adjacent to existing commercial uses and we have concerns about the transmission of noise affecting the amenity of the proposed occupiers. A condition is recommended for the submission of a noise assessment to consider these sources. The applicant is also informed that a higher level of sound insulation is required where residential and commercial uses share a party wall/floor/ceiling and this must be considered in the noise assessment.</p> <p><u>Construction</u> A condition is recommended to control the hours of construction in order to protect the amenity of neighbouring occupier during this phase.</p> <p><u>Recommended Conditions</u></p> <p>NC9 Noise Assessment Report and Mitigation Scheme - Condition Before construction work commences, a report specifying the measures to be taken to protect the development from noise from all significant noise sources that are likely to affect the proposed development including road traffic/commercial premises etc. shall be submitted to and approved in writing by the Local Planning Authority. The report shall:</p> <ul style="list-style-type: none"> a) Determine the existing noise climate b) Predict the noise climate in living rooms (daytime), bedrooms (night-time) and other habitable rooms of the development c) Detail the proposed attenuation/design necessary to protect the amenity of the occupants of the new residences (including ventilation if required). <p>The development shall not be occupied until all works specified in the approved report have been carried out in full and such works shall be thereafter retained. Reason: To protect the amenity of occupiers of the proposed development from noise or disturbance from nearby noise generating premises to accord with the aims of Policies LP24 and LP52 of the Kirklees Local Plan and Chapters 12 and 15 of the National Planning Policy Framework.</p> <p>NC6 For use where proposed commercial and residential share a party structure (floor / ceiling or wall etc) – Condition Before the development is brought into use written evidence to demonstrate that the airborne sound insulation performance of the party floors/walls/ceiling of the development is of a minimum of 53dB $D_{nTw} + C_{tr}$ shall be submitted to and approved in writing by the Local Planning Authority. If it cannot be demonstrated that the aforementioned airborne sound</p>		

insulation performance has been achieved, a scheme incorporating further measures to achieve the sound insulation performance shall be submitted to and approved in writing by the Local Planning Authority. All works comprised within those further measures shall be completed and further written evidence to demonstrate that the aforementioned sound insulation performance level has been achieved shall be submitted to and approved in writing by the Local Planning Authority before the development is first brought into use.

Reason: To protect the amenity of occupiers of the proposed development from noise or disturbance from nearby noise generating premises to accord with the aims of Policies LP24 and LP52 of the Kirklees Local Plan and Chapters 12 and 15 of the National Planning Policy Framework.

NF4 Competent Person - Footnote

All noise assessments should be carried out by a competent person. The applicant may wish to contact the Association of Noise Consultants <http://www.association-of-noise-consultants.co.uk/> (020 8253 4518) or the Institute of Acoustics <http://www.ioa.org.uk> (0300 999 9675) for a list of members.

CSC1 Construction Site Working Times - Condition

No construction related noise shall be audible beyond the site boundary outside the hours of:

- 07.30 to 18.30 hours Mondays to Fridays
- 08.00 to 13.00 hours Saturdays

With no construction related noise audible beyond the site boundary on Sundays or Bank/Public Holidays.

Reason: To safeguard the amenities of the occupiers of nearby properties in accordance with part 15 of the NPPF and LP52 of the Local Plan

CSF1 Construction Sites working times – Footnote

Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.
