Good Morning

Regarding the proposed change of use of The Shepherds Boy. How can someone start ripping out a public house and then apply for a change of use. This whole episode of this public house stinks. I thought there was a new blue print about not closing pubs without due diligence of it remaining a public house and finding a buyer for this. Ossett brewery did not even attempt to sell this as a public house. They got an offer and sold it knowing it was going to be a dentist.
