User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I object strongly to this application on the grounds that privacy for myself & other relatives visiting memorials would be taken away once new residents are able to wander around these grounds. People's lasting wishes were to be buried here & this should be respected as well as their families when they tend to their families graves. I cannot see how anyone would want to live in a graveyard so i cannot see how this can work in this situation
