<p>It is unclear from the drawings how access is going to be facilitated for me &amp; other people wishing to tend &amp; visit the graves of loved ones, at the moment we all park on the road &amp; walk in to the site which is all that I think needs to be maintained but it might not be appropriate if we have to walk past windows to the new residential conversion or have to visit graves with children playing noisily outside</p> <p>It would have been useful to have included some sort of screening between the properties &amp; the graveyard</p> <p>It cannot be right that we effectively have to walk across someone else's private space in order to visit our loved ones</p> <p>I am sure with some thought this could all be resolved easily</p>
