<p>I would like to formally object to the proposed plan for dormers on the property next door. The construction of dormers will obstruct natural light from my home, leading to a significant reduction in the amount of sunlight entering my living spaces. This will not only affect the atmosphere and comfort of my home but also potentially impact my property's value and overall livability.</p> <p>Additionally, I have serious concerns regarding the proposed emergency housing. As a landlord renting to young students, many of whom are female, I do not feel comfortable with the uncertainty surrounding who will be residing next door. The lack of transparency regarding the residents of this facility raises safety concerns, particularly since the neighbor has trespassed onto my property on multiple occasions in the past. This history of trespassing has already caused us distress, and I worry that with the introduction of emergency housing, there will be increased risk of trespassing, unwanted visitors, or other safety issues.</p>
