<p>I have just move directly opposite to Almondbury WMC, I've spent an absolute fortune, on my flat, as I thought it would be the very last property I would buy, as I'm 65 now. Then I discover the the WMC, is going to be converted to shops, and and areas of education, etc, can you tell me what shops are going to be there. And what is the educational plans, We do have residential parking where I live, but this planning application will make all our lives a misery, as nobody takes any notice, and freely parks in our residential parking bays all the time. All of the residents ages are 55 to 80, this is causing myself and all the residents so much worry and upset, at a time in life we're we should have peace and quiet,to live the rest of our days happily. Please reconsider this application, I thought I would be very happy here, after a long period of been so poorly,mentally and physically I cannot move house again. I want a forever home, very sadly if this planning application is granted so many people will be devastated.</p> <p>Thank you.</p>
