About the application

Application number: 2025/90487	
What is the application for?:	Change of use and alterations to convert from vacant bank (Class E) to hot food
Address of the site or building:	47, Huddersfield Road, Mirfield, WF14 8AE
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes

I strongly object to this planning application. This is an unsuitable building to have a takeaway due to the heavy traffic on Huddersfield Road and lack of parking. Our garage and parking space is located at the bottom of Trinity Street. The parking on the street is already narrow enough to enter and exit the street and this proposed establishment will increase this issue.

Trinity Street is a dead end and it is difficult to turn around and I worry that with the extra footfall of customers as well as the added delivery drivers through food delivery apps will make this road a nightmare to navigate and will impact the road users on Huddersfield Road when people start reversing back onto the main Road and impacting the traffic flow. There are number scout group meetings that take place during the week as well as meetings at Trinity Church and I fear that with the increase of traffic up and down the street will also increase the risk of accidents occurring.

There are enough takeaways in the town centre and already an increase of rats, this will only help to increase the rodent population. As a resident I do not want to see an increase in litter or anti social behaviour which I believe happen if this application goes ahead.
