| Upper Dearne Valley Environmental Trust (UDVET) would like to make the STRONGEST OBJECTION to the landscaping proposals within this application in that they assume the removal of TPOs. We welcome the reinstatement of the hedge after this and an extensive amount of other vegetation was recently ripped up from the site. We have also objected to the removal of the TPOs on this site contained in separate Application 2025/TNA/90609/E of which the Tree Officers are aware. |    |
