Description

Field to the south of Longlands Road, Slaithwaite HD7 5DR. Accessed by path between 68 and 70 Longlands Road (at w3w womb.collides.garden).

The field then runs along below the residential properties on the road, finishing roughly in line with 74 Longlands Road.

NB the "site area" given below is for the bigger of two fields (now I believe on one title, formerly two) which is the field in which we are proposing to put a shepherd's hut (on wheels). The location plan returned an error message if the blue line area covered both fields and access track.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- Yes
 No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The proposed development is a moveable shepherd's hut with a footprint of 13m² which will not impact priority habitat on site. The proposed use of the hut is to assist with the permaculture use of the surrounding land which includes willow coppicing, growing of sorghum and beekeeping. Evidence of this is hard to provide but please arrange to visit if you want to see.

Note: Please read the help text for further information why developments may be exempt or not in scope.
