<p>As a resident living within close vicinity to the proposed footpath, I support Harron Homes revised proposal to repurpose the currently unused land for natural landscaping, as outlined in the new Harron Homes planning application. The previously proposed footpath would likely lead to an increase in antisocial behaviour and additional noise for local residents. The pathway would also be un-lit, which would be a safety concern for local residents after dark. It's noted that the pathway hasn't been in place for the last 11 years (since the estate was originally built) and residents are able to access all parts of the estate using the existing footpath network.</p>
