it will cause to the

listed 1642. Building more

① then 200 years old

also a ~~spring~~ spring

under the site which  
send water every day running  
down Elm St.

The work would under-  
mine the old dry stone  
wall and may be shade  
onto the new house

The very large tree,  
would need to be a  
danger if left.
