FIRST SCHEDULE      CERTIFICATE OF LAWFULNESS FOR EXISTING USE OF  
LAND FOR PURPOSES INCIDENTAL TO THE  
DWELLINGHOUSE

SECOND SCHEDULE    4-5, MAZEBROOK, DRUB, CLECKHEATON, BD19 4BT

**KIRKLEES COUNCIL HEREBY CERTIFY THAT ON 14-MAR-2025 THE USE DESCRIBED IN THE FIRST SCHEDULE THERETO IN RESPECT OF THE LAND SPECIFIED IN THE SECOND SCHEDULE HERETO AND EDGED RED ON THE PLANS ATTACHED TO THIS CERTIFICATE WAS LAWFUL WITHIN THE MEANING OF SECTION 191 OF THE TOWN AND COUNTRY PLANNING ACT 1990 (AS AMENDED), FOR THE FOLLOWING REASONS:**

It has been demonstrated, on the balance of probability, that the land within the red line boundary as shown on drawing numbers 4135/01/001 and 4135/01/002 has lawfully been used for domestic purposes incidental to the use of the dwellinghouse at 4-5 Mazebrook.

**NOTE:** This decision only confirms the use of the land for purposes incidental to the dwellinghouse at 4-5 Mazebrook, This decision does not confirm the extent of any domestic curtilage.

### **Development within a Coal Mining Area**

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:

[Building on or within the influencing distance of mine entries - GOV.UK](#)

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes.

Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at:

<http://www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property>  
[What is a permit and how to get one? - GOV.UK \(www.gov.uk\)](#)

In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: [Mining Remediation Authority - GOV.UK](#)

**NOTES:**

- (1) This certificate is issued solely for the purpose of section 191 of the Town and Country Planning Act 1990 (as amended).
- (2) It certifies that the use specified in the First Schedule taking place on the land described in the Second Schedule would be lawful on the specified date and, thus, was not liable to enforcement action under Section 172 of the 1990 Act on that date.
- (3) This certificate applies only to the extent of the use described in the First Schedule and to the land specified in the Second Schedule and identified on the attached plan. Any use which is materially different from that described or which relates to other land may render the owner or occupier liable to enforcement action.
- (4) The effect of the certificate is also qualified by the proviso in Section 191 (6) of the 1990 Act, as amended, which states that the lawfulness of a described use or operation is only conclusively presumed where there has been no material change, before the use is instituted or the operations begun, in any of the matters relevant to determining such lawfulness.
- (5) If the applicant is aggrieved by the decision of the Local Planning Authority to issue a certificate of lawfulness of development, for any part development applied for (including any modification or substitution of the description of the use), s/he may appeal to the Secretary of State in accordance with Sections 195 and 196 of the Town and Country Planning Act 1990 (as amended). Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate>. Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
