<p>I full support my neighbours request for planning permission to remove the pillars. This will allow the residents of 50 Birkby Lodge Road to access their new drive with ease. I have seen the resident struggle to manoeuvre their vehicle on to the drive as it is currently and it can be dangerous to other road users due to the time it take to drive on to the drive. I would also like to add Mr Hussain is a well respected neighbour the house and garden renovations he has done is a great improvement to once what was a run down property and let the street down. The improvement has allowed the foot path a more usable and safe for walks as a pose to what was missused.</p>
