In principal the flats are not my concern. The application to have 5 parking spaces is the problem. The premises are in close proximity to our flats and all these cars would have an impact on our quality of life. We require access to our properties as i am disabled and need to be able to drop my shopping off. The beer garden is the proposed parking area and this is very close to our dwellings. We do not want cars revving coming at all hours. This area is very congested because of taxis and other parking. The beer garden is tiered how would that work. Would the area be flattened. I have concerns over the amount of pollution in close proximity to my dwelling from five cars.
