<p>This is a busy road, with cars travelling at speed from Halifax Road to access Westbourne Road and visa versa. There have been quite a number of RTA's at the point where Marsh Grove Road crosses Imperial Road. There are increasing numbers of cars parking on the road related to houses of multiple occupation, extended family members regularly visiting residents, etc. This combination of increased on road parking and people using the street as a 'rat run' increases the risk of further collisions and issues of safety for road users and pedestrians.</p> <p>There is clear precedent of houses having driveways. In a cluster of the immediate 12 houses, 7 have off road parking. All have been done tastefully and in keeping with the stipulations of a conservation area regulations. People regularly park right up to the junctions, severely restricting visibility, so having more off street parking would help alleviate this dangerous situation. I wholeheartedly support this application.</p>
