<p>Why did we not receive any up dates on this planning application? I have not received ANY notification about the changes requested and nor has anyone else on the row. How many windows / rooms are going to be directly across from ? Having a direct line of view into and ? The invasion of privacy that I feel has been forced upon us is indescribable and my , no longer feels safe , which is the one up to now. i know buliding work has already commenced and that there is little that Kirklees cares about my situation, but the lack of communication from Kirklees is disgusting. We should have been informed about the porposed changes.</p>
