I wish to formally object to the proposed development of 34 residences in Thornhill. My objections are based on the following critical concerns: - Inadequate Infrastructure: The existing road network in and around Thornhill is already in a poor state of repair. The addition of significant new housing will exacerbate traffic congestion and further deteriorate road conditions, impacting current residents and emergency services. - Overstretched Local Services: Our local GP surgeries and dental facilities are currently operating at full capacity. Residents already struggle to secure timely appointments, and the influx of new families from these residences will place an unbearable strain on these essential healthcare services, leading to longer waiting times and reduced access for everyone. - School Capacity Issues: Local schools are already facing challenges in accommodating the current student population. The development will inevitably lead to an increase in the number of children requiring school places, for which there is insufficient capacity, potentially impacting the quality of education for all students. I urge you to consider these significant impacts on Thornhill's existing infrastructure and services before any approval is granted.
