I grew up in this area and it has a beautiful nature park and walkways. I think it would be fantastic for some residential houses here to experience the beauty of the surroundings and put the land to some good use as it's abandoned at the moment and derelict it's a shame it's not being used to its full potential. As there is a shortage of houses and this area would benefit hugely from some residential houses here as there is high potential for this area as it has local mosques and shops and facilities. It would be amazing for people to reside in this beautiful area.
