The site is currently underused, and redeveloping it into residential housing would be a positive improvement for the area. It would help meet the demand for housing locally while making effective use of previously developed land. The proposal would also enhance the appearance of the site and contribute to the wider regeneration of the neighbourhood. I believe this is an appropriate and beneficial use of the land and fully support the application. I grew up in Savile town, and my children are now married and have moved to Thornhill, Dewsbury so this area is very important to me and my family.
