I support this development as it will help prevent the ongoing issue of fly-tipping in the area, which has been a persistent concern for local residents. Transforming the site into a well-maintained residential space will discourage illegal dumping and improve the overall cleanliness and safety of the neighbourhood. I am confident that the development will also bring wider benefits to the community, including increased housing availability and a more positive use of the land. Overall, I believe this proposal represents a meaningful improvement to the area and would be a welcome change.
