Hi I've rang your department numerous times about the planned 34 dwelling's at the site that was the combs hostel Thornhill Dewsbury ,the main reason I need to speak to you is the fact that there is no proper access into or out of this site,anyone coming up from this site cannot turn left without crossing the double white lines in the middle of the road and people trying to turn into this site coming from the direction of Horbury cannot do that without the need to shunt,when this land was being cleared trucks that were bring heavy plant were unable to get down to the site and bulldozers and other machinery were being unloaded outside my house causing cracks in my house that was built 130 years ago , my house was actually shaking,it's very hard to explain why this site is totally unacceptable for this project, , we have many accidents on this blind bend even with the small amount of traffic that uses these roads now, please will you try to come personally so I and many other residents can point out to you why it's so wrong, to look at as to how traffic treats this road when turning left at the top of hall lane, unbelievably this was a Kirklees bin lorry only yesterday who did this outrageous thing instead of driving forward and reversing down the side of my house so he could safely turn left please take another look at this proposal
