<p>Although I am in favour of business improving in Mirfield and bringing jobs to the town I am concerned by the number of cars being parked on both sides of the road outside Newgate garage.</p> <p>I use Newgate on a regular basis and the stretch of road outside the garage is reduced to a single lane almost every day causing great difficulty in getting passed especially if a large vehicle or bus is coming the other way, when I came past this morning cars were parked on both sides of the road and the piece of land that is proposed for the extension was also full of cars, where are those cars going to go ?</p> <p>What makes it worse is the road is not straight and has a slightly humped bridge that makes it difficult to see sometimes even when the traffic is quiet.</p> <p>I think the traffic situation needs to be considered very carefully before a decision is made on the application as some afternoons I have seen traffic queuing all the way over the river bridge to lower Hopton during the rush hour.</p>
