

About the application

Application number: 2025/90938	
What is the application for?:	Outline application for erection of one dwelling (all matters reserved)
Address of the site or building:	adj, 2, Dam Head, Holmbridge, Holmfirth, HD9 2PB
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>This is the 3rd application in recent months that the landowner has made and been rejected, for as this is green belt land.</p> <p>The owner has applied making claims that the land is Grey Belt, which it has never been. I have lived here 9 years and this land has only ever been grazing land for the owners horse and pony, there has never been a shed, stables garage or anything else other than beautiful green grass, hedgerows and trees. he used to maintain this area to a beautiful standard. It is full of wildlife. There is an underground stream and it's a main passageway for frogs to reach the river adjacent to the land. We are witness to this each year.</p> <p>The land is in an area of natural outstanding beauty backing on to acres of pasture land. it is not ugly or unsightly in anyway, but the owner has allowed brambles to extend into the field- I assume to create the look of grey land which is is not.</p> <p>For the first application made on this green belt , the owner wished to avoid an eco survey which may have delayed his intentions to build, so many trees were taken down. Thankfully hedgerows and trees still remain and we have a wide variety of birds, bats and occasional deer visiting. The biodiversity is crucial and a link/passageway to the fields running along side.</p> <p>This objection is based on the wildlife that needs to be preserved and the natural beauty of greenbelt making our village what it is.</p>
