<p>I note the application is for change of use. This work has already been completed. I regularly walk up that public right of way past the property on my way home from work.</p> <p>On dark evenings I feel less secure as I approach the top of the path. The extension of the garden and high fence means my view to the left as I approach the tarmac path is now severely restricted. Previously I had a clear vision to my left and this felt much safer as a lone female walking home from Birstall.</p> <p>I also note the photos which contain debris, which has actually been left there by the property owner themselves including concrete waste.</p> <p>I am concerned the property owner will now feel he can extend his garden further down making the path itself even narrower and less safe.</p>
