## User comments

Type of comment: A supporting comment	
Do you wish your comments to be published on the website anonymously?	Yes
<p>I fully support this application as it will enhance the design, appearance and layout of the existing site while maintaining its positive character within the local landscape. The improvements proposed are in keeping with the area and will improve both visual quality and community function.</p> <p>The development will provide safe, inclusive, and accessible facilities in line with Kirklees Local Plan policies LP24 (Design) and LP47 (Healthy, Active and Inclusive Communities). It supports participation for women, children, and minority groups, reflecting the growing diversity of local cricket and the wider Mirfield community.</p> <p>Importantly, the proposal will not negatively affect highway safety, traffic, or neighbouring amenity, and is designed to minimise any noise or disturbance.</p> <p>This project represents sustainable development that enhances local living conditions, promotes equality of opportunity, and strengthens community cohesion clear benefits consistent with both local and national planning guidance.</p>
