Subject: Planning application 90956 Moorlands Cricket Club

To whom it may concern,

I wish to register my objection to the above planning on the grounds of road safety and noise. There is currently insufficient parking. Visitors to Moorlands currently double park on Huddersfield Road and double park down Hurst Lane. We have been blocked in by people attending Moorlands. Visibility to enter and exit Hurst Lane is compromised and not safe at times. In recent times the club has also had late night events with extremely loud music beyond midnight.

As a resident of Hurst Lane, I feel this plan will only increase the likelihood of road traffic accidents/problems, disturbance and inconvenience to local residents along with obtrusive noise.

Please advise what my next steps should be with regard to my objection.

Kind regards,
