<p>As a to 17 Far View , I must strongly object to the latest application, just as I have with the previous one.</p> <p>In my opinion the details from the applicant are lacking in transparency and are vague at best. Using words like, usually, predominantly and if possible, does not fill me with confidence for the applicant to deliver the service he is promising and would have a license to do what he wanted, if passed.</p> <p>By reducing the potential child numbers by one, to three children at the property, will in my opinion make little difference. There is still all the trade waste to collect, food deliveries to be carried out, staff parking, taxis, social workers and all that comes with a commercial business of this nature.</p> <p>The road is still the same width and the residents still have the same number of cars parked on their driveways and on the road outside.</p> <p>Where will staff and all these visitors park their vehicles, there simply isn't the space? There is still the probability of antisocial behaviour and noise from staff, visitors and residents and none of this will disappear by reducing the occupancy by one child</p> <p>The facts fundamentally remain the same. I am in no doubt the character of the building will change, the highways issues haven't been addressed and it will change the dynamics of the Crescent for everyone.</p> <p>For these reasons the council must refuse the application.</p> <p>Thank you.</p>
