Assessment

The Kirklees SPD sets out that single storey side extensions should comply with certain parameters set out at paragraph 5.17 on page 28 (and listed below) and if they do not, they need to be justified:

Single storey side extensions should be offset and complement the original building. As such, single storey side extensions should:	<u>Yes - COMPLY</u>	<u>No - JUSTIFY</u>
not extend more than two thirds of the width of the original house;	Yes – the proposed extension projects out by 4.5m.	
not exceed a height of 4 metres; and	Yes - the height of the proposed extension is set below the height of the existing roof	
be set back at least 500mm from the original building line to allow for a visual break	Yes - the extension is set back by 1m	

Design and Visual Amenity: Are the considerations in the following table acceptable?

Summary of local street scene/character:

The application site refers to a detached bungalow located at the head of a cul-de-sac. There are detached dwellings and semi-detached dwellings all along the cul-de-sac that share some of the same characteristics and features albeit with individual styles.

The application property is constructed from stone to the front elevation with white render to other elevations , with grey tiled roof, and white uPVC windows. To the front of the property is an open driveway, providing access and excellent parking provision on site and in curtilage. Boundary treatments are formed by wooden fences.

Consideration has been given here in terms of the proposal's impact on the local character and street scene, including subservience, terracing and building line.

The design of the proposal is therefore acceptable and accords with policies LP24 of the adopted Kirklees Local Plan, the SPD and the NPPF.

Residential Amenity: Are the considerations in the following table acceptable?

The main properties affected are:

- 3 Raikes Wood Drive – Located to the west of the application site. Shall see additional bulk to the property, however, given the non-linear building lines and distance between these properties, it is considered that there will be no impact on number 3.
- 85 Raikes Lane – this property is located to the opposite side to the proposed extension, thus, no major impact to number 85.
- There are properties to the front of the application site, however, due to the great distance between the frontage of each property, no significant impact would occur.
- No properties located to the rear.

		Climate Change Statement has been submitted with this application.	
Drainage and Flood Risk	<ul style="list-style-type: none"> • KDP 14 of the SPD • Policy LP24 (d) (vii), LP27 and LP34 of the KLP 	The rear garden and landscaping would be retained to allow for run-off. The site is not located within an identified Flood Risk Zone 2 or 3 area.	✓

The proposal is therefore acceptable in terms of the above listed other matters and accords with policies set out in the Kirklees Local Plan, the SPD and the NPPF.

Representations, including Parish/Town Council comments:

No representations received.

Conclusion:

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

This application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.
