<p>I am so happy to hear that local people are involved in this project. This will make our lives a lot easier and will reduce emissions as we have to travel to Birkby for community programs and worship.</p> <p>I am especially excited about this project as I have heard that there will be facilities in place for ladies to attend and to be involved in the activities that will be arranged here - this is rare and innovative. This should be supported by everyone from all walks of life.</p> <p>I like to be aware of what's happening in my community and this establishment seems to of been organised by professionals who want to help bridge the growing gaps between communities - I have come to know that they are intending to set up a food bank that will be set up to support everyone in the community that is needy. They have already started reaching out to the people who live around the hall to introduce themselves and speak about any concerns the locals may have.</p> <p>I believe this to be a good future for us - open dialogue and an understanding coupled with support regarding issues that effect us all</p> <p>I've heard through the grapevine that there are youth mentors involved in this project that are well known in professional and voluntary settings. These individuals have an amazing proven track record of working with challenging youngsters - these individuals help in our local schools and are recognised within kirklees for their outstanding work.</p> <p>I honestly am looking forward to this project - I don't know why the application has been submitted as just a mosque - as the vision seems to be a place a worship but a place that serves its community too.</p> <p>(I've noticed that they've already started come out and started tidying the area up around the hall :)</p>
