

## Appendix A – Climate Change Statement

### Climate Change Statement for Planning Applications

#### Part 1: Applicant details

Name of applicant/agent	MISS JAFFIER
Site Address	176 QUARMBY ROAD HUDDERSFIELD HD 34 PD
Description of Development	SINGLE STOREY EXTENSION (CONSERVATORY)

#### Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
The proposed extension is designed to maximise solar gains and to minimise the need for energy consumption. Glazing units will exceed the minimum requirements of building regulations.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
All materials will be locally sourced
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

<p><b>Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)</b></p>
<p>The extension will maximise solar energy</p>
<p><b>Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)</b></p>
<p>The site is not in an area identified as being liable to flooding</p>
<p><b>Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)</b></p>
<p>n/a</p>
<p><b>Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)</b></p>
<p>The proposed extension is sited on existing hard surfaced area such that there is no loss of habitat. Existing trees and planting to the formal garden areas will be retained and enhanced as necessary.</p>
<p><b>Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)</b></p>
<p>n/a</p>
