<p>Firstly, the height of the new developments will have a negative effect on the light which is able to reach our gardens and houses. The character of the cottages will be tarnished, as they already have, by the house as it currently stands AND the bed factory which our houses now overlook.</p> <p>The work that they intend to be carried out will cause disturbance in terms of noise and the ability to drive in and out of the terrace. Not to mention the years worth of eyesore and constitutional pollution.</p> <p>Also, with the balcony, at the second level, it will look across into our large windows and therefore feels like an invasion of privacy.</p> <p>Finally, we already suffer from them parking outside their boundaries, obstructing the drive towards the cottages. If they have this further development, then they will have less space in their car park for their 5-6 cars which stay there on a regular basis. Meaning they would obstruct the drive further especially with visitors.</p>
