<p>This farm is situated on a single track road that is designated a bridleway. In recent years a number of barns have been erected, but no planning notices seen on the lane. Also the farm is used by a company called 2 valleys. The company provides equipment for hire at large events. The motor vehicle traffic on the bridleway has already increased dramatically because of this company, causing great disruption to residents, riders and pedestrians. I believe that putting new buildings up will free up others for use of 2 valleys.</p>
