I have to object for a few reasons The farm is already too big, the amount of buildings for a small amount of land is already too much . The farm has been building since it last had planning in 2017 with out planning applications. The noise is already too much and the amount of traffic is too much for the single track lane which is a bridleway and footpath. The farm produces too much manure for it to be used on a small amount of land and there are massive piles of it near to houses and can be seen by many of the houses in Briestfield . The farm is more like an industrial estate with the amount of traffic coming and going at all hours of the day and every day of the week. The farm is commanding the view of the whole of the area, you can see the farm from all parts of Briestfield . It used to be a well kept traditional farm.
