Subject: 2025/91149 planning application, Yew Tree lane.

Proposed stables and implement store.

Dear planning department,
We wish to make you aware of our concerns regarding the proposed development outlined in the planning application form. Whilst we have no objection to the barn building being converted into a house.
We do object and are concerned about the size, height and position of the proposed stables and implement store being directly in our line of sight from our house at Hillside Cottage and very much altering the nature of our view and aspect.
We purchased this house 6 months ago specifically because of our gorgeous views over the Holme Valley and it is a key feature of our house.
We are also wishing to make you aware for the special historic nature of the hamlet of Yew Tree and the erection two large buildings opposite would diminish this.

Yours sincerely

Hillside cottage
