

**KIRKLEES METROPOLITAN COUNCIL
INVESTMENT & REGENERATION SERVICE**

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 73

**DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS TO
CARRY OUT DEVELOPMENT WITHOUT COMPLIANCE WITH PLANNING
CONDITIONS PREVIOUSLY ATTACHED**

Reference No:	2025/70/91153/E
Site Address:	Riley House, 49, Riley Lane, Kirkburton, Huddersfield, HD8 0SX
Description:	Variation condition 2 (plans) on previous permission 2022/91554 for erection of replacement pool house
Recommending Officer:	Jennifer Booth

DECISION – VARIATION OF CONDITION APPROVED

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

John Holmes

AUTHORISED OFFICER

Date: 19-Jun-2025

OFFICER REPORT

Site Description

The application site relates to a large residential dwellinghouse, associated curtilage and wider landscaped grounds. To the south east of the site there is an existing glazed outbuilding serving a swimming pool which is the subject of this application. Access is taken via a driveway from the west at the public highway Riley Lane.

The area is sylvan in character and is sited beyond the settlement edge of Kirkburton. The site is washed over by the Green Belt.

Description of Proposal

The applicant is seeking permission to vary condition two of the approval under 2022/91554 for a replacement pool house.

The pool house would be moved approx. 2m from the original position and be predominantly upon the same siting. The windows in the rear elevation would be altered from the approved high level to full height.

Relevant Planning History

2013/90174 – erection of two storey side extension and orangery – approved

2022/91554 – replacement pool house - approved

Representations

The application was advertised by neighbour letters, which expired on 16/06/2024 in accordance with the Council's Development Management Charter.

As a result of the above publicity, no representations have been received.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is Green Belt on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP 30** - Biodiversity
- **LP 57** – Extension, alteration or replacement within Green Belt

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 13 – Protecting green belt land
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change
- Chapter 15 – Conserving and enhancing the natural environment

Assessment

Principle of development:

The site is within the Green Belt on the Kirklees Local Plan Proposals Map. As such a key consideration will be its impact on the Green Belt and it will be assessed having regard to Policy LP57 and NPPF chapter 13. In addition, the impact of the development on design grounds, residential amenity and highway safety will also be considered along with, biodiversity and all other material considerations and representations received.

Impact on Green Belt:

The NPPF identifies that the fundamental aim of Green Belt policy is to prevent urban sprawl by keeping land permanently open. The NPPF also identifies five purposes of the Green Belt. Paragraph 153 of the NPPF states that inappropriate development should not be approved except in 'very special circumstances'.

Paragraphs 154 and 155 of the NPPF set out that certain forms of development are exceptions to 'inappropriate development'. Paragraph 154 sets out that the extension or alteration of a building could be appropriate provided it does not result in disproportionate additions over and above the size of the original building. Policy LP57 of the Kirklees Local Plan is consistent with advice within the NPPF. Policy LP57 of the Local Plan relates to the extension, alteration and replacement of existing buildings in the Green Belt. In the case of extensions, it notes that these will be acceptable provided that the original building remains the dominant element both in terms of size and overall appearance.

Policy LP57 also outlines that such development should not result in a greater impact on openness in terms of the treatment of outdoor areas, including hard standing, curtilages and enclosures and means of access. Further to this, Policy LP57 states that with such development, the design and materials should have regard to relevant design policies to ensure that the resultant development does not materially detract from its Green Belt setting.

For the purposes of this application, consideration is given to the type of development proposed. The outbuilding is situated some distance from the main house with a separation of approx. 87m from the dwelling. However, Riley House is a large, detached dwelling set in substantial gardens which from the site visit and aerial imagery would be considered to form the curtilage of Riley House with land scaped areas of gardening, paths and associated domestic paraphernalia. There is a clearly delineated boundary around the site.

Approval was granted in 2022 for a replacement pool house. The current application seeks to vary condition two and move the pool house 2m to the south. The size of the pool house would not alter and would still be within the curtilage and would not infringe upon the green belt any more than the

approved building. The alteration to the windows in the rear elevation would not alter the appearance significantly.

As the proposed variation would see the majority of the building upon the location of the approved building and it would not be possible to lawfully implement both the original consent or the proposed variation (in the event of a grant of permission) the proposal would not see a situation whereby both the varied permission and original permission could be undertaken.

The variation of condition is therefore considered to be acceptable in terms of the green belt.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes onto state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

The pool house would be the same size and form as approved although re sited 2m. The grounds are of a significant size and can host the pool house in the revised location without any significant impact in terms of visual amenity. The change to the openings on the rear elevation would have a small scale visual impact.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

In this instance, there are no neighbouring properties which could be affected by the works given the significant size of the grounds of Riley House and the isolated nature of the site.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Chapter 12 of the National Planning Policy Framework.

Impact on highway safety:

The proposals for a private pool house in the grounds of Riley House will not result in any intensification of the domestic use. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 of the House Extension & Alterations SPD.

Other matters:

Biodiversity

Whilst the property is sited in area, which is known to include bat habitats, in this instance, given the nature of the works proposed it is considered unlikely to have an impact on the bat population.

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Representations:

None

Negotiations:

None

Proposed conditions

It is considered necessary to amend condition 1 to ensure no additional time is added from that of the original consent (which was granted 17th February 2023).

Condition 2 would remain as worded and refer to an updated plans list schedule.

Conclusion:

This application to vary condition 2 of approval under 2022/91554 for a replacement pool house at Riley house has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation

Approve

Decision Authorisation - Delegated Powers

Application Number: 2025/91153

Officer Recommendation: Approve

Conditions and Reasons

1. The development hereby permitted shall be begun before 17th February 2026.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

NOTE: Due to its location, a bat roost may be present on site. Bats are a European protected species under regulation 41 of the Conservation of Habitats and Species Regulations 2010. It is an offence for anyone intentionally to kill, injure or handle a bat, disturb a roosting bat, or sell or offer a bat for sale without a licence. It is also an offence to damage, destroy or obstruct access to any place used by bats for shelter, whether they are present or not.

If bats are discovered on site development shall cease and the applicant is advised to contact Natural England for advice.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -

Plan Type	Reference	Web ID	Date Received
Proposed plans	2892 04	1086726	25/04/2025
Plan Type submitted as part of application 2022/91554	Reference	Web ID	Date Received
Location plan	03b	972961	30/01/2023
Existing plans	01a	931238	6/05/2022

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application. As the submitted plans were considered to be acceptable, no changes were sought.

Report Dated 18/06/2025
