<p>I am writing to formally and strongly object to this planning application of a MOT Station.</p> <p>My house is directly behind this building and already with just the steel frame up is affecting light to my street. The height of the proposed building is in breach of the original plans, I estimate by 2 to 3 meters. The foot print of the building has also been enlarged in contravention of planning. I would also bring your attention to the noise of a garage and the affect on neighbours. This is a residential area with families who work all week and want to have use of our gardens and outside areas with out noise pollution on our precious weekends. This has affected _____ and i can not imagine the effect that this monstrosity will cause if the owner is allowed to flout planning yet again.</p> <p>The building needs to be lowered to original plans and business hours need to be Monday to Friday ONLY.</p> <p>This building will be an eyesore and will be detrimental to the neighbourhood</p> <p>Kind regards</p>
